A printed piece from the Kleinman campaign arrived in mailboxes Saturday. On one side are litigious statements about Mark Reeds background. All which have been dealt with previously, as subterfuge, and which are now escalated to malice.

However, on the back side are four pictures. The top photograph is the candidate.

The next picture is presumably Major O'Brien. The remaining two look like they correspond to quotes, BUT they don't, and that is disconcerting.

Did attorney Cyrus Wilkes know his quote and a misrepresentation of his image would be placed on Kleinman's Facebook account and mailed throughout the district?

The last quote, from Cyrus Wilkes (a local atty and former Sgt USMCR, Operation Iraqi Freedom CombatVeteran), offering support may very well be accurate BUT the picture to the left is not Cyrus. More than likely it is Captain Michael La Vere from World War II. The other gentleman is Art Sherman head of Wings over Wendy. **Neither VETERAN has given a public endorsement in the 30th Congressional race.**

The theme of the Canoga Park MEMORIAL DAY parade was emphasized, the cost of freedom. Dignitaries had Veterans with them as they rode the parade in their cars, again honoring their service.

How has Kleinman or even Sherman ever served the veterans, from WW2, they are exploiting? Other than for a photo-op. (Brad Sherman had a four car line up in 2012 and even rode TWICE in the parade route)

Mark Reed, the OTHER candidate for US Congress in the 30th district, is the Founder of Los Angeles Veterans Community Coalition, working with the San Fernando Valley Bar Ass. and Pepperdine University Law and has the full respect and support of the Veterans throughout the San Fernando Valley. Mark Reed regularly visits the Veteran facilities (without camera and picture opportunities for himself) and KNOWS the veterans because he is fighting to protect the land and EARNED benefits.

Here is a legitimate endorsement from a veteran.

My name is Cory A. Cavaleri, and I am a 100 percent service connected veteran of the U.S. Army. I would like to convey to full endorsement for Mr. Mark Reed and his campaign for the California 30th Congressional District. I have observed Mr. Reed to be a man of character and insight on how best to serve his constituents in our nation's legislative branch. I have heard Mr. Reed speak with great enthusiasm on he deeply desires to make our nation fiscally responsible and admired worldwide. I firmly believe that Mr. Reed is the future leadership that we need here in the San Fernando Valley.

RESPECT VETERANS.

Respect their service

Respect and fulfill our promise to provide timely medical care and benefits earned.

Restore the Sepulveda VA to a full medical and mental health care facility with supportive housing.

Mark Reed
